H5385 Slurry Pump

The new Hi-Spec slurry pump offers greater output to suit contractors or larger scale farmers. It has an output of approx 3800 gallons per minute & requires a tractor of 110HP.

Standard features of the slurry pump will include:

- 2 point quick attach for fast & easy pick up
- **Hydraulic control for raising & lowering into tanks**
- Fully galvanised finish
- **Hydraulic up/down movement for depth control**
- Quick & simple spout control
- **Top fill outlet as standard with quick changeover**
- Wide turning arc for spout
- **No removal of PTO necessary**
- Heavy duty lifting frame
- Safety platform
- Hi-Spec build & construction

The Hi-Spec slurry pump has been redesigned to meet the needs of the modern farmer. A strong support frame and finish ensure that our pump is built to last. Fully galvanised as standard, the Hi-Spec pump is stronger and suited to meet the greater demands for mixing.
